PROFESSIONAL SUMMARY

Results-driven and adaptable Information Science and Engineering graduate with hands-on experience in Full-Stack Development. Proficient in Java, JavaScript, Python, and modern web frameworks including Spring Boot and React.js. Demonstrated ability to build highly interactive web applications, optimize real-time logic engines, and collaborate effectively in fast-paced technical teams to solve complex software challenges.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python, C

Frameworks & Libraries: Spring Boot, Hibernate, Spring Core, JDBC, JSP, Node.js, React.js

Web Technologies: HTML5, CSS3, RESTful APIs

Databases: SQL, PL/SQL (MySQL / PostgreSQL)

Core Competencies: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPs), Computer Networks (CN)

Developer Tools: VS Code, Eclipse, Git, GitHub

WORK EXPERIENCE

Full-Stack Development Intern – Test Yantra

Bengaluru, India

- Developed and deployed responsive user interfaces using React.js, improving cross-browser compatibility and user retention by 15%.
- Engineered secure backend API endpoints utilizing Node.js and Java frameworks, streamlining data flow between client interfaces and relational databases.
- Collaborated in an Agile team of developers to debug system bottlenecks, perform code reviews, and optimize SQL database queries, reducing application load times by 20%.

TECHNICAL PROJECTS

Smart Road Sync – Dynamic Traffic Management

Technologies: Python, Computer Networks, Data Analytics Tools

- Architected an automated traffic management framework using real-time vehicle density analysis to optimize signals while leading a 4-member agile engineering team.
- Designed a live data visualization platform to monitor high-density traffic streams, successfully improving simulated overall traffic flow efficiency metrics by 25%.
- Orchestrated final system integration testing and managed end-to-end sprint timelines to ensure successful project deployment ahead of schedule.

Artful Adobe – Interactive Interior Customizer

Technologies: HTML, CSS, JavaScript, Spring Boot, Web APIs

- Built an interactive, fully responsive web application enabling users to dynamically visualize room layouts, customize furniture positions, and modify textures.
- Integrated a robust, real-time cost estimation logic engine that instantly reflects accurate pricing on material changes, boosting user engagement by 30%.
- Optimized frontend rendering paths and streamlined DOM manipulation scripts, ensuring seamless transitions across mobile and desktop interfaces.

EDUCATION

East West Institute of Technology

12/2022 – 05/2026

Bachelor of Engineering in Information Science & Engineering • Bengaluru, India

Cumulative GPA: 8.4 / 10.0

CERTIFICATIONS

- Java Programming and Software Engineering – JSpiders (2025)
- Back-End Development and APIs – JSpiders (2025)
- Responsive Web Design – Ethnotech Academic (2025)
- C Programming – Infosys Springboard (2024)

LEADERSHIP & EXTRA-CURRICULARS

- Workshop Conductor:** Organized and delivered a hands-on Web Development training bootcamp for over 40 junior students, teaching fundamentals of HTML, CSS, and structural JavaScript, resulting in a 95% workshop completion rate.
